

MediMatrix TM App (iOS)

Install:

- 1) On your Apple Phone, navigate to the App Store
- 2) Click the Search icon and type “MediMatrix”
- 3) Download the App named “MediMatrix TM”
 - Supported iOS version 11 and higher

Setup:

- 1) Log into MediMatrix Provider Portal, navigate to SETUP tab> Technologists
- 2) Find your name and setup messaging as follows;
 - Use Secure Messaging = YES
 - Access Pin = setup a 5-digit access pin
 - Cancel via Secure messaging = Yes/No (if Yes selected, technician is able to cancel orders)
 - Use Tech Mobile Phone App = YES

Using the App:

- 1) Dispatch will send an ‘on shift’ OR ‘exam assigned’ notification
- 2) From your phone, click the message link

(Shift Status Enabled) https://demo.medimatrix.biz/techmobile/c?msg_id=I&t=Uut14YKnIPKX&z
On shift, please log into TechMobile.

(X-ray)

TechMobile Access
demo.medimatrix.biz

- 3) User will be directed to use the App, click OPEN

Open this page in “MediMatrix TM”?

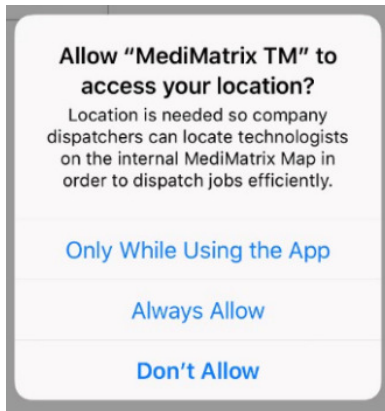

Cancel Open

MediMatrix™ App (iOS)

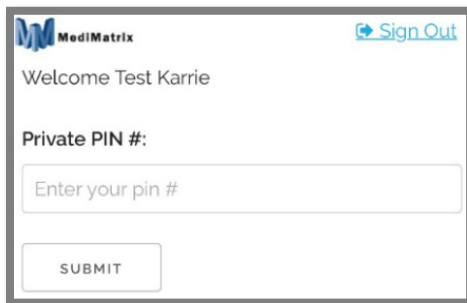

4) Upon first use, user will be prompted to choose to use location services

- Always Allow = this will allow most accurate tracking while tracking is on (preferred)
- Only while Using the App = this will allow tracking, only when user is navigating within the app, while tracking is on
- Don't Allow = This will disable any tracking option even when app “tracking is on”

5) Enter your 5-digit PIN, setup in previous steps, and SUBMIT

- Once logged in, users can access the App directly rather than through the text message

MediMatrix™ App (iOS)

6) Allowing Tracking

- On the BOTTOM RIGHT of App Screen user will have two options for tracking
 - TRACKING IS OFF = when displayed means tracking services are off
 - TRACKING IS ON = when displayed means tracking services are on and users can track your location
- TAP Tracking is on/Tracking is off to change tracking status
